Safety Precautions

Please read the following guidelines carefully to ensure user safety.

Power Precautions

⚠ WARNING: indicates information that, if neglected, could result in serious injury and/or death to the user.

⚠ CAUTION: indicates information that, if neglected, could result injury to the user and/or material damage.

01. Use only the authorized power supply product. Failure to do so could result in product malfunction.

02. When connecting the power source, make sure that your hands are free of moisture. Failure to do so could result in electrical shock.

03. Make sure that the power supply is firmly plugged in and not loose. Failure to do so could result in electrical shock.

04. Do not let the power cord get overly entangled and do not place any heavy objects on the cord. Failure to do so could result in electrical shock.

05. Do not connect the power supply to an electrical power strip with other various connections. Failure to do so could result in fire.

06. Disconnect the power supply during inclement weather conditions that include thunder and lightning. Failure to do so could result in fire.

Safety Precautions

Please read the following guidelines carefully to ensure user safety and avoid malfunction.

Product Related Precautions

01. Dropping the product or subjecting it to a significant impact can cause critical damage.

02. Spilling water or any other liquid on the product can cause critical damage.

03. Striking or scratching the LCD screen may cause critical damage.

04. When cleaning the LCD screen, turn off the power and wipe it gently with a soft cloth.

05. Do not subject the product to severe humidity and/or heat.

06. Make sure to power off the unit before disconnecting the power supply.

What's-In-The Box?

- 1 Cloud Frame
- 1 Quick Start Guide
- 1 Power Adaptor
- 1 USB cable
- 1 OTG cable
- 1 Warranty card
- 1 Cloud Frame Stand

Know your Cloud Frame

- 1. Earphone jack:** Audio output connection for earphones.
- 2. Volume up:** Press to increase the volume level.
- 3. Volume down:** Press to decrease the volume level.
- 4. Power:** Press and hold on for more than 3 seconds to turn on or turn off the unit. One quick press to turn the screen on and off.
- 5. Micro USB port:**
 - a. Charge and power the frame with the included power adaptor and USB cable.
 - b. Connect this unit to your computer by USB cable, and read U-disk by OTG cable.
- 6. MicroSD card slot:** Insert one of the microSD cards each time(support up to 32GB).
- 7. Stand:** Using the stand provided that the frame can sit on the top of a surface.
- 8. Speaker:** Stereo speakers built-in.

Connect Power

Plug the Power Adapter into the frame and also into a power outlet.

Press and hold on the Power () button for more than 3 seconds to turn on or turn off the frame.

Link Wi-Fi

After power-on, the screen will appear a prompt to ask you to link to Wi-Fi, follow below instructions to link your frame to the internet.

Link Wi-Fi

Step1: Tap "Settings" button on the prompt.

Step2: Tap WiFi button () to turn on.

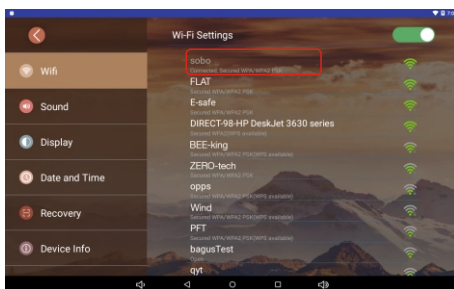

Step3: Select your network.

Step4: Input your password, and then tap "Connect" button.

Now, you can see your router has been connected, which means your frame has been linked to internet.

Register Your Cloud Frame

After Wi-Fi is connected, tap "My Cloud Album" on home screen, below message will appear to remind you to register your cloud frame.

Now you can register your cloud frame on this device, or you can go to your mobile phone or computer to register your cloud frame.

1) Register on your Cloud Frame

Tap on "Register Now" button on the prompt, enter your personal information, then tap "Submit", you will be prompted to enter the activation code that has been sent to your registered email, get your activation code, and tap "Confirm".

Note: The Serial Number has been extracted from the system, you do not need to input it.

2) Register with your mobile phone

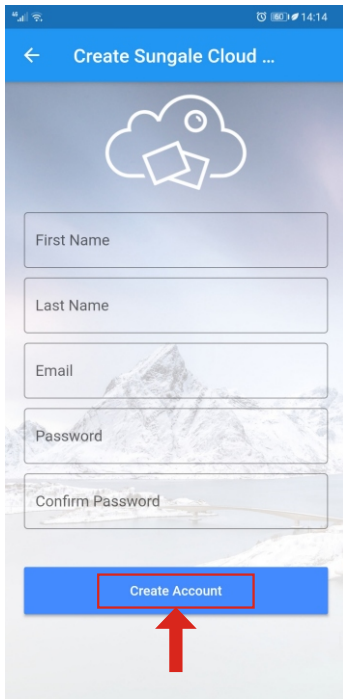

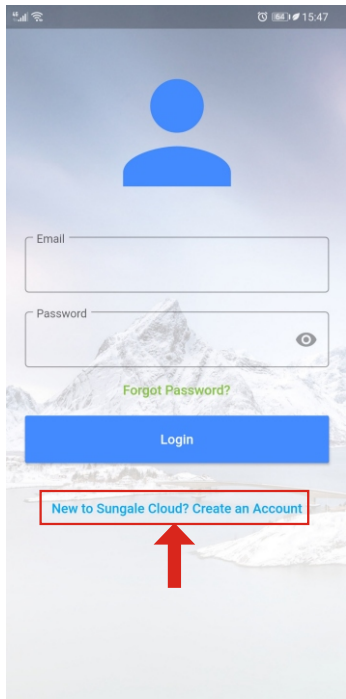

Step1: Go to Apple's App Store or the Google's Play Store, download and install "Sungale Cloud" onto your mobile phone.

Register Your Cloud Frame

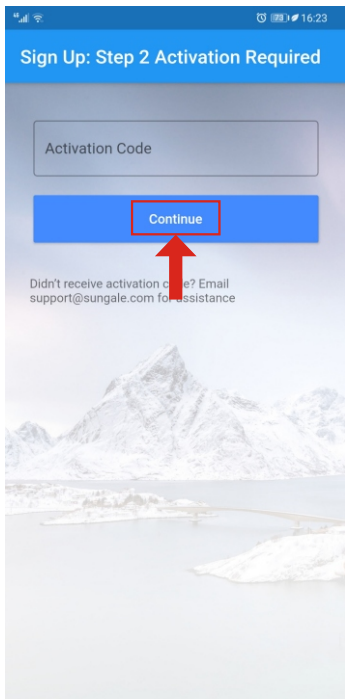

Step2: Open the "Sungale Cloud" App from your phone, tap "New to Sungale Cloud? Create an Account".

Step 3: Enter your personal information and tap "Create Account".

Register Your Cloud Frame

Step 4: You'll receive an activation email from Sungale shortly, enter the activation code on the interface, and you have your cloud account ready. Then you can activate your cloud frame by entering your frame serial number.

Activate My Cloud Frame

3) Register on your computer

Open browser, type in <https://cloud.sungale.com>, you will find below interface. Click on "Sign Up", then click "Activate your Cloud Product".

Register Your Cloud Frame

You will be prompted to register the frame by providing the serial number from your frame as well as some basic personal information, then click "register" button.

This is a screenshot of a registration form titled 'Register now to activate your Sungale Cloud Account.' The form contains several input fields: 'Serial Number', 'Your name', 'Email' (pre-filled with 'sang@sungale.com.cn'), 'Choose your password', 'Address' (with sub-fields for country, address 1, address 2, city, state or province, and zip code), 'Telephone (optional)', 'Birthday (optional)', and 'Gender (optional)'. There is a checkbox for 'I have read and agree to the Service Terms set out by this site, including our Cookie Use.' At the bottom of the form, a blue 'Register' button is highlighted with a red box, and a red arrow points to it from below.

Please go to your email inbox to find the activation email sent from support@sungale.com. If you don't receive it, please contact support@sungale.com right away. Fill in the activation code on the webpage, and you're done. Now you can tab "Authenticate registration" button on your frame to access your cloud album.

Check if you need to upgrade

After Wi-Fi is connected, tap "Settings" on home screen, then tap Setting/ Device Info/Upgrade/Check for updates, System will auto inspect new Version.

Step1: Tap on "Settings"

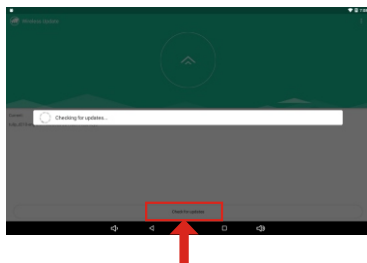

Step2: Tap on "Setting"

Step3: Tap on "Device Info"

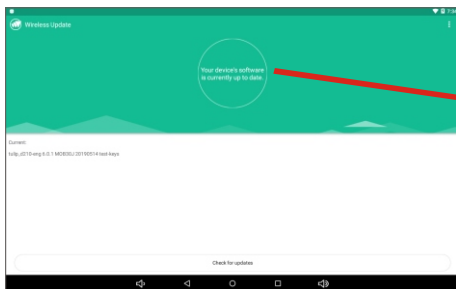

Step4: Tap on "Upgrade"

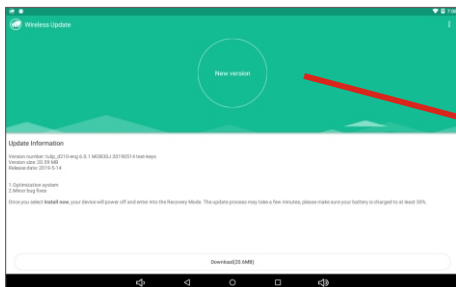

Step5: Tap on "Check for updates"

Check if you need to upgrade

If your device's software is currently up to date, it should look like the below:

If it has new version, your frame should look like the below:

Now you can follow the steps below to upgrade your cloud frame.

Step1: Tap on "Download"

Step2: Tap on "Install now" when download fulfilled

Check if you need to upgrade

Step3: Tap on "OK"

Step4: Upgrading Progress

When upgrading fulfilled, the system will auto re-start, then, a prompt will appear on home page to indicate the system has been upgraded to the latest version.

WiFi Setup

You should automatically be prompted to setup your WiFi connection during the frame registration process, but if you ever need to connect to a new WiFi network, follow below instructions:

Step1: To setup the WiFi Connection on your photo frame, click "Settings" from the home screen.

Step2: Select the "Settings" menu icon.

Step3: Tap WiFi button () to turn on.

Step4: Select your network.

Step5: Input your password, and then tap "Connect" button.

Note: A WiFi internet connection is required in order to register and use your frame as well as access the online features available.

Tips: How to change 12 hour time to 24 hour time?

If you want to change 12 hour time to 24 hour time. You can go to main menu, tap "Settings", and tap "Date and Time", then tap 24-Hour Time button () to turn on.

Dropbox

We have set a block for Dropbox on the home page of your cloud frame, however, since frequent updates, we did not pre-install Dropbox App. You can go to Settings/ All Apps/Play Store to download and install Dropbox, and after the Dropbox is installed, you can tap on the Block to use it.

Settings Menu Overview

APP Block

Where your downloaded & installed Apps and Google Play are located.

Web Browser

Where you can browse, surf and search the internet.

File Directory

Where to access your internal and external memory files.

Settings Menu

Where all your device settings are located for your frame.

Here's some Set-Up Guide

WiFi:

Connect your Cloud Frame to your Wi-Fi router.

Sound:

You can set up Media Volumes & Notification Volumes.

Display:

You can set up Brightness.

Date and Time:

You can set up Date and Time.

Recovery:

You can reset frame.

Device Info: You can see frame basic information and upgrade frame.

Insert a memory card

Insert card in the direction indicated by the arrow on the top of the card (the side of the memory card on which sticker is affixed face the frame).

MicroSD card is compatible with this unit.

Aligning the memory card upside down may cause user-error damage.
This may nullify the warranty.

Removing the Memory Card

When removing a memory card from the frame, pull the card straight away from the unit. Avoid bending the card.

Connect the Cloud Frame to the computer

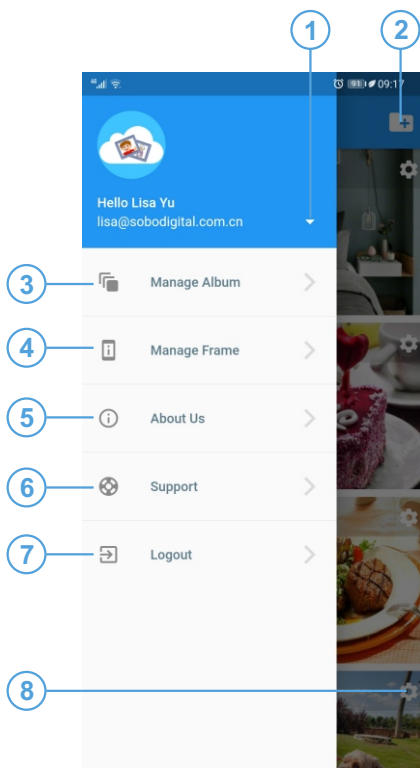

Use the USB cable to connect the Cloud Frame to a computer.

In My Album menu, select the album you want to push this linked frame, tap  icon then tap "Push to Cloud Frame".

Select this linked frame then then tap "Push Album to selected Cloud Frame".

Now the cloud album you pushed will appear on this linked frame shortly.

Troubleshooting

1. I'm not able to register, the app says my frame has Invalid serial number?

Only Sungale cloud products can be registered with Sungale cloud. If you have a regular digital photo frame, which doesn't have cloud feature, it cannot be registered with Sungale cloud, please just use SD card or USB flash drive to display photo (and videos).

2. How to find my cloud frame serial number?

On your cloud frame, click Settings at the lower right corner, then click **"Settings"** again, scroll down to find **"About device"** or **"Device info"**, you'll find your device serial number starts with **"SU****"**.

3. Why my cloud pictures are not showing on my cloud frame?

Please first check if your cloud album has been pushed to your cloud frame. Login to your Sungale cloud app, tab **"Manage Frame"** from the menu options, then tab your cloud frame showing on the top, you'll see which cloud albums have been pushed your frame.

If an album has been pushed, but not showing on our frame, please check Wi-Fi connection on your frame, check if it is connected to Internet, please go to your frame home screen, and go to Online Photo or Online Video backup list, see if the backup list can show up.

If all of above are all confirmed with no problem, it still cannot receive photos, it is a rare case. Then please try to do following operation, go to **Settings > Apps > All> find "Wififrame" app** (the app could be named same as your cloud frame model number) > press **"clear data"** button > **reboot frame**. This would re-download everything you've pushed from the cloud.

4. I haven't received activation code for registration.

Please check your junk folder, if still haven't received anything, please email support@sungale.com, we'll push through the registration for you within 24 hours.

5. How to update my cloud account email? What if I have a typo?

Your account email cannot be changed once it's registered, you'll need to contact support@sungale.com to update it.

Troubleshooting

6. What to do when I got message "This frame is already registered by another user" message?

Sometimes retailers resell returned goods, and you might get a device that is previously registered by another user. But don't worry we can remove previous registration for you, please send a picture with the frame showing the serial number, and a copy of your purchase receipt, we'll remove previous registration for you as soon as possible.

7. Why does my cloud frame "Turn off" after a while?

Your frame will not turn off by itself, it'll go to sleep according to the cloud setting. You can adjust how long your frame goes to sleep. Simply login to your Sungale cloud app, tab **"Manage Frame"** from the menu options, and tab the settings icon of your frame to go to your frame settings.

Then adjust the sleep in settings to your desired time, and save the setting. Your cloud frame will pick up the change shortly.

8. Can I send videos to my cloud frame?

The Sungale cloud does not support sending cloud videos yet. But you can access videos on other online app, or insert a SD card, to access from the Local Video section.

9. My account password isn't working, what can I do?

You can reset the password by clicking the Forgot Password link at the Sungale cloud app login interface. Or you could email support@sungale.com to have it reset.

10. Pictures showing sideways or upside-down on frame

Please delete the wrong photos, then, re-upload on cloud frame website or via app.

11. Frame showing "Wififrame has stopped" message frequently

It happens for too many pictures been pushed at once meanwhile the Wi-Fi connection is not good. We would like to suggest you to split the pictures into smaller slide shows, and push one by one, it is better to wait for one slideshow fully shown, then push another.

Troubleshooting

12. Remove the Time/Weather panel

Logon to the cloud frame service platform <https://cloud.sungale.com>, click **"Frames"** on the platform. If you find **"Weather Panel Setting"** button, you can select to turn off/on weather report. For some earlier models, you may not see the selection button, which means the frame's system needs upgrade, please contact support@sungale.com for system upgrade instruction, then, you can select to turn off/on weather panel.

13. How to add a new cloud frame into my current account?

Sungale's cloud frame does not support to add multi cloud frames into one account, each of our frames has its independent account number. We are working on Grouping Frames function, you will see the function soon.

14. What's my account number while signing in to cloud app?

It is just the email address you have used when you registered your cloud frame, and the password is just the one you are using for logged in the cloud frame's service platform <http://cloud.sungale.com>.

15. Forget password, Cannot sign in to frame service platform <http://cloud.sungale.com>

There's a **"forgot password"** link under the **"login"** screen. You can input your registered email address and **"submit"**, then, you will get a new password created by the server from support@sungale.com, then, please change it to your own password.

16. How to make slideshow the photos stored in USB/SD card/On-board memory?

Go to **"Local Photos"** section, click the vertical three dots on the upper right corner, click **"start slideshow"** from the dropdown menu.

17. Can I change the local photo slide show styles/time intervals?

NO, only cloud album slide show is configurable

Troubleshooting

18. How do I use Dropbox? How do I slideshow photos on my Dropbox account?

Please go to the Google Play on your frame to install the Dropbox app first, then you'll be able to access it from the home screen. If for some reason you're unable to install it, please go to the Social Media section, go to the backup list, and you can install from there as well.

Once Dropbox is installed, please logon to your account, save the Dropbox photos to your frame internal memory, and you can slide show from the Local Photo section.

19. Why can't I link to Wi-Fi?

Please check if you have turned on the Frame's Wi-Fi. Go to Settings menu, tap WiFi button turn on.

Please check if you have input the right password of Wi-Fi router. For more Wi-Fi related questions, please go to www.sungale.com and find Support Wi-Fi related FAQ.
